The SPD contains information on agencies throughout the state that offer a variety of outpatient mental health and related services. While we have made every effort to comprehensively survey outpatient mental health providers, there may be omissions while we continue to collect information. If there are programs in your area that are not included in the system, please send an email to Dana.Weiner@Illinois.gov identifying the agency name, telephone number, and address.

A provider's appearance on this list does not constitute IDCFS approval for funding for contracted or non-contracted services. Regular service approval protocols should be followed. In addition, inclusion in this list does not constitute an endorsement by the Department, or a judgment of the quality of the services provided therewith, but only signifies that the provider reports offering the requested services within the specified geographic region.

Welcome to SPDInfo, designed to supplement the IDCFS Statewide Provider Database with other information about resources, events, trainings, and web links. Please explore this site and if you have any comments, additions, or corrections please contact [Susan Pinto](#).

One of the key areas of SPDInfo is our [calendar](#). On the SPDInfo Calendar, you will find a number of one-time events, like resource fairs open to providers and families, or seasonal camps, which may be useful for you or the families/clients with whom you work.

In addition, we have compiled (and are continuing to supplement) a listing of other websites which may be of use to you or your clients. Many of these sites have information about programs for specific kinds of clients or otherwise cater to very specific needs. To make the listing easy to navigate, these web links have been grouped into the categories listed below.
